This technical drawing illustrates the cross-section of a window frame assembly. It shows the internal structure, including the frame, the glass pane, and the surrounding components. The drawing is a detailed line drawing, likely a patent or technical specification, showing the internal components of a window frame. It includes a cross-section of the frame, the glass pane, and the surrounding components, such as the seal and the frame material. The drawing is oriented vertically, with the frame on the left and the glass pane on the right. The frame is shown in a cross-section, revealing its internal structure and the way it is attached to the wall. The glass pane is shown in a cross-section, revealing its thickness and the way it is held in place. The surrounding components, such as the seal and the frame material, are also shown in a cross-section, revealing their internal structure and the way they are attached to the frame and the glass pane.
