Electromechanical swing door drive system for 2-leaf fire and smoke protection doors with closing sequence control and integrated smoke switch

#### **AREAS OF APPLICATION**

- $\rightarrow$  Fire and smoke protection doors
- $\rightarrow$  Hold-open systems with integrated hold-open function country-specific specifications must be observed
- ightarrow Right and left double leaf single-action doors
- ightarrow Single-action doors up to 3200 mm hinge clearance, 1600 mm leaf width and 600 kg weight
- $\rightarrow$  Minimum hinge clearance 1657 mm
- ightarrow Interior and exterior doors with high access frequency
- ightarrow Transom installation hinge and opposite hinge side

#### **PRODUCT FEATURES**

- ightarrow Smart swing function for easy manual door opening
- ightarrow Closing force of EN4-7 with variable adjustment
- ightarrow Integrated smoke switch control unit, whose signal closes the door automatically in the event of a fire
- ightarrow Opening and closing speed can be individually adjusted
- $\rightarrow$  Mechanical latching action when operated without current, and electrical latching action in regular operation, which accelerates the door shortly before the closed position
- ightarrow Mechanical and electrical closing sequence control holds the active leaf in the waiting position until the passive leaf is closed
- ightarrow Low-energy function opens and closes the door with reduced speed, fulfilling the highest safety demands
- ightarrow Obstacle detection detects an object through contact and stops the opening or closing process
- ightarrow Automatic reversing detects an obstacle and returns to the opening position
- ightarrow Push & Go function triggers the automatic drive following light manual pressure on the door leaf
- ightarrow Drive can be used with roller guide rail or link arm
- ightarrow Servo function for motorized support when manually opening the door
- ightarrow Optional radio reception board for wireless activation by radio transmitter
- ightarrow Freely configurable inputs and outputs for different functions
- ightarrow Can be networked, and integrated into the building automation via open standard (BACnet)

#### **TECHNICAL DATA**

#### PART

#### **POWERTURN F/R-IS**

Electromechanical swing door system for double leaf fire and smoke protection doors with closing sequence control and integrated smoke switch

#### LINK ARM POWERTURN / POWERTURN F

For transom and door leaf installation with reveal depths up to 560 mm

| Designation                         | Description                                                                                                          | ldent-<br>No. | Colour              |
|-------------------------------------|----------------------------------------------------------------------------------------------------------------------|---------------|---------------------|
| Link arm Powerturn /<br>Powerturn F | Length 245 mm for reveal depth / 20 mm to 160 mm with sensor link arm, /<br>-30 mm to 110 mm without sensor link arm | 154707        | EV1                 |
| Link arm Powerturn /<br>Powerturn F | Length 645 mm for reveal depth / 420 mm to 560 mm with sensor link arm, / 370 mm to 510 mm without sensor link arm   | 154721        | according to<br>RAL |
| Link arm Powerturn /<br>Powerturn F | Length 245 mm for reveal depth / 20 mm to 160 mm with sensor link arm, /<br>-30 mm to 110 mm without sensor link arm | 154709        | according to<br>RAL |
| Link arm Powerturn /<br>Powerturn F | Length 445 mm for reveal depth / 220 mm to 360 mm with sensor link arm, / 170 mm to 310 mm without sensor link arm   | 154714        | EV1                 |
| Link arm Powerturn /<br>Powerturn F | Length 545 mm for reveal depth / 320 mm to 460 mm with sensor link arm / 270 mm to 410 mm without sensor link arm    | 154717        | EV1                 |
| Link arm Powerturn /<br>Powerturn F | Length 445 mm for reveal depth / 220 mm to 360 mm with sensor link arm, / 170 mm to 310 mm without sensor link arm   | 154715        | according to<br>RAL |
| Link arm Powerturn /<br>Powerturn F | Length 545 mm for reveal depth / 320 mm to 460 mm with sensor link arm / 270 mm to 410 mm without sensor link arm    | 154718        | according to<br>RAL |
| Link arm Powerturn /<br>Powerturn F | Length 645 mm for reveal depth / 420 mm to 560 mm with sensor link arm, / 370 mm to 510 mm without sensor link arm   | 154720        | EV1                 |
| Link arm Powerturn /<br>Powerturn F | Length 215 mm for reveal depth / -10 mm to 130 mm with sensor link arm, /<br>-30 mm to 80 mm without sensor link arm | 165818        | EV1                 |
| Link arm Powerturn /<br>Powerturn F | Length 215 mm for reveal depth / -10 mm to 130 mm with sensor link arm, /<br>-30 mm to 80 mm without sensor link arm | 159376        | according to<br>RAL |
| Link arm Powerturn /<br>Powerturn F | Length 345 mm for reveal depth / 120 mm to 260 mm with sensor link arm, / 70 mm to 210 mm without sensor link arm    | 154712        | according to<br>RAL |
| Link arm Powerturn /<br>Powerturn F | Length 345 mm for reveal depth / 120 mm to 260 mm with sensor link arm, / 70 mm to 210 mm without sensor link arm    | 154711        | EV1                 |

#### **COVER POWERTURN**

For the Powerturn swing door drive, including additional side panels and shaft covers painted with cover colour

| Designation                                  | Description                                                           | Ident-No. | Colour              |
|----------------------------------------------|-----------------------------------------------------------------------|-----------|---------------------|
| Cover Powerturn                              | Cover including end caps and shaft covers painted in the cover colour | 161927    | EV1                 |
| Cover extension kit for GEZE Powerturn       |                                                                       | 157830    |                     |
| Intermediate cover kit for GEZE<br>Powerturn |                                                                       | 157831    |                     |
| Powerturn additional side panel / axis cover |                                                                       | 162746    | silver-coloured     |
| Cover Powerturn                              | Cover including end caps and shaft covers painted in the cover colour | 160326    | according to<br>RAL |

#### **POWERTURN / POWERTURN F ROLLER GUIDE RAIL**

For transom installation on the hinge side or opposite hinge side with roller guide rail

| Designation                        | Description                                                                         | ldent-<br>No. | Colour              | Type of installation                     |
|------------------------------------|-------------------------------------------------------------------------------------|---------------|---------------------|------------------------------------------|
| Roller guide rail<br>Powerturn (F) | For transom installation opposite hinge side,<br>length 691 mm, lever length 450 mm | 153813        | according to<br>RAL | Transom installation opposite hinge side |
| Roller guide rail<br>Powerturn (F) | For transom installation opposite hinge side,<br>length 691 mm, lever length 450 mm | 153812        | EV1                 | Transom installation opposite hinge side |
| Roller guide rail<br>Powerturn (F) | For transom installation hinge side, length 691<br>mm, lever length 330 mm          | 153790        | according to<br>RAL | Transom installation hinge side          |
| Roller guide rail<br>Powerturn (F) | For transom installation hinge side, length 691<br>mm, lever length 330 mm          | 153787        | EV1                 | Transom installation hinge side          |

#### **CONNECTOR PLUG POWERTURN / EMD 230 V**

230 V connection and GEZE logo for the Powerturn / EMD

| Designation                      | Description                    | Ident-No. | Colour |
|----------------------------------|--------------------------------|-----------|--------|
| Connection Powerturn / EMD 230 V | Connector plug Powerturn / EMD | 156890    | black  |

# INSTALLATION KIT FOR MECHANISM FOR INTEGRATED CLOSING SEQUENCE CONTROL

For double leaf doors with closing sequence control to ensure the correct door closing sequence

| Designation                                                 | Description                                                                                                                           | Ident-No. |
|-------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------|-----------|
| Mechanism for integrated closing sequence control Powerturn | complete installation kit for mechanical closing sequence control for active and passive leaf (tested in accordance with DIN EN 1158) | 154838    |

#### GC GR FOR GC 338

Sensor roller guide rail Powerturn for GC 338 sensor strip

| Designation                     | Description                                                                               | ldent-<br>No. | Colour              | Type of installation                     |
|---------------------------------|-------------------------------------------------------------------------------------------|---------------|---------------------|------------------------------------------|
| GC GR for GC 338<br>Powerturn   | For Powerturn / Powerturn F, installation on the hinge side, lever length 330 mm          | 157451        | according to<br>RAL | Transom installation hinge side          |
| GC GR for GC 338<br>Powerturn   | For Powerturn / Powerturn F, installation on the opposite hinge side, lever length 450 mm | 157476        | EV1                 | Transom installation opposite hinge side |
| GC GR for GC 338<br>Powerturn   | For Powerturn / Powerturn F, installation on the opposite hinge side, lever length 450 mm | 157477        | according to<br>RAL | Transom installation opposite hinge side |
| GC GR for GC 338<br>Powerturn * | For Powerturn / Powerturn F, installation on the opposite hinge side, lever length 450 mm | 157475        | according to<br>RAL | Transom installation opposite hinge side |
| GC GR for GC 338<br>Powerturn   | For Powerturn / Powerturn F, installation on the hinge side, lever length 330 mm          | 157472        | EV1                 | Transom installation hinge side          |
| GC GR for GC 338<br>Powerturn   | For Powerturn / Powerturn F, installation on the hinge side, lever length 330 mm          | 157450        | EV1                 | Transom installation hinge side          |
| GC GR for GC 338<br>Powerturn   | For Powerturn / Powerturn F, installation on the opposite hinge side, lever length 450 mm | 157474        | EV1                 | Transom installation opposite hinge side |
| GC GR for GC 338<br>Powerturn   | For Powerturn / Powerturn F, installation on the hinge side, lever length 330 mm          | 157473        | according to<br>RAL | Transom installation hinge side          |

#### ACCESSORIES

**POWERTURN 230 V T-DISTRIBUTOR \*** 

Optional 230 V connection for external peripheral device

| Designation                   | Description                                                                                         | Ident-No. |
|-------------------------------|-----------------------------------------------------------------------------------------------------|-----------|
| Powerturn 230 V T-distributor | Optional 230 V connection for external peripheral device (max. 700 W, max. 7 A, AD 0.75 $\rm mm^2)$ | 166272    |

#### GC 338

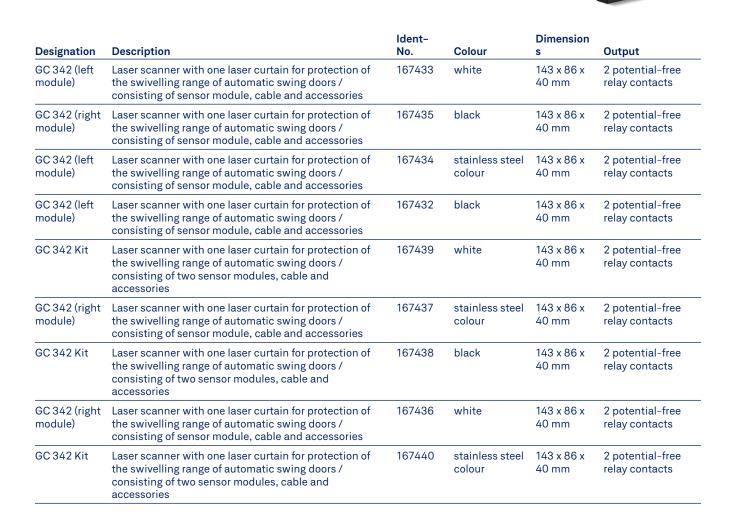

Sensor strip with standby mode for the protection of automatic swing and revolving doors

| Designation                                | Description                                                                                                                                                             | ldent-<br>No. | Colour              | Output                          | Operating<br>voltage |
|--------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------|---------------------|---------------------------------|----------------------|
| GC 338 Pair of<br>sensor strips<br>1200 mm | consisting of two complete sensor strips for<br>protection of the swivelling range of automatic<br>swing and revolving doors in accordance with DIN<br>18650 / EN 16005 | 142825        | according to<br>RAL | Electrical relay                | 24 V DC +/-<br>20%   |
| GC 338 Pair of<br>sensor strips<br>1500 mm | consisting of two complete sensor strips for<br>protection of the swivelling range of automatic<br>swing and revolving doors in accordance with DIN<br>18650 / EN 16005 | 142827        | according to<br>RAL | Potential-free<br>relay contact | 24 V DC +/-<br>20%   |
| GC 338 Pair of<br>sensor strips<br>1500 mm | consisting of two complete sensor strips for<br>protection of the swivelling range of automatic<br>swing and revolving doors in accordance with DIN<br>18650 / EN 16005 | 142757        | EV1                 | Electrical relay                | 24 V DC +/-<br>20%   |
| GC 338 Pair of<br>sensor strips<br>1200 mm | consisting of two complete sensor strips for<br>protection of the swivelling range of automatic<br>swing and revolving doors in accordance with DIN<br>18650 / EN 16005 | 142219        | EV1                 | Electrical relay                | 24 V DC +/-<br>20%   |

#### GC 342

Laser scanner for the protection of automatic doors and windows with integrated object and wall blanking  $% \left( {{\left[ {{{\rm{A}}} \right]}_{{\rm{A}}}} \right)_{\rm{A}}} \right)$ 

#### SPINDLE EXTENSION POWERTURN

Available lengths 30 mm and 50 mm

| Designation                 | Description | Ident-No. | Colour           |
|-----------------------------|-------------|-----------|------------------|
| Spindle extension Powerturn | V = 50 mm   | 153827    | according to RAL |
| Spindle extension Powerturn | V = 30 mm   | 153824    | according to RAL |
| Spindle extension Powerturn | V = 50 mm   | 153826    | EV1              |
| Spindle extension Powerturn | V = 30 mm   | 153822    | EV1              |

#### ADAPTER FOR SENSOR LINK ARM

For mounting the link arm at the same height as the sensor strip

| Designation                 | Description                               | Ident-No. | Colour           |
|-----------------------------|-------------------------------------------|-----------|------------------|
| Adapter for sensor link arm | For Powerturn, EMD / EMD-F and TSA 160 NT | 144352    | silver-coloured  |
| Adapter for sensor link arm | For Powerturn, EMD / EMD-F and TSA 160 NT | 153126    | according to RAL |

#### GC 302

Radar movement detector for the activation of automatic doors

| Designation                         | Description                                                   | ldent-<br>No. | Colour              | Dimensions          | Output                          |
|-------------------------------------|---------------------------------------------------------------|---------------|---------------------|---------------------|---------------------------------|
| GC 302 R radar<br>movement detector | Radar movement detector for the activation of automatic doors | 124087        | black               | 176 x 62 x 52<br>mm | Potential-free relay<br>contact |
| GC 302 R radar<br>movement detector | Radar movement detector for the activation of automatic doors | 124088        | according to<br>RAL | 176 x 62 x 52<br>mm | Potential-free relay contact    |

#### GC 307+ \*

Non-contact proximity switch for activating automatic doors

| Designation              | Description                                                                                                              | ldent-<br>No. | Colour          | Dimensions         | Type of installation          |
|--------------------------|--------------------------------------------------------------------------------------------------------------------------|---------------|-----------------|--------------------|-------------------------------|
| GC 307+<br>(hand icon) * | Proximity switch for the activation of / automatic doors                                                                 | 195727        | alpine<br>white | 80 x 80 x 21<br>mm |                               |
| GC 307+ (WC<br>icon) *   | Proximity switch for the activation of / automatic doors<br>/ Suitable for Powerturn, EMD, and standard sliding<br>doors | 195751        | alpine<br>white | 80 x 80 x 21<br>mm |                               |
